

What we offer

Kelros exists to help our clients to design, develop and implement messaging and collaboration solutions - built on IBM social technologies - that deliver tangible social business solutions and business benefits.

- Achieving outstanding outcomes for our clients is what motivates us. We are proud to have built deep and longstanding with many clients over the last 20 years, working in partnership with them to maximise the efficiency and effectiveness of their IT environments and help drive business success. Change is a constant and in this fast-paced world, working with Kelros will ensure you stay on top of the latest technological advances and identify opportunities to use these to improve your business' performance and increase your competitive advantage.
- In a busy marketplace, we believe Kelros is differentiated through the clarity of our focus and the quality of our proposition:
- Our primary focus is the expert development and delivery of IBM messaging and collaboration solutions and services
- Our integrated business solutions are market-proven and cost-effective for our clients
- Our team of specialist professionals delivers unrivalled experience, knowledge and IBM accreditations
- We have a full-time in-house UK-based team ready and waiting to support you at all stages of our relationship

The benefits for your business

Almost 20 years' experience of developing messaging and collaboration business solutions for our clients has proved that the right technology solution can boost productivity, improve customer service and sharpen a business' competitive edge.

Kelros is committed to helping you identify the IBM environment that is right for your organisation and accelerating the deployment of the solution, ensuring you benefit from:

- Low software acquisition costs
- Tried and tested methodologies
- Fixed priced services and support
