In a world where many choices and actions are made on the move it is increasingly important for businesses and employees to be able to operate as smoothly remotely as they can in the office. However going mobile can present security challenges - not so with IBM MaaS360. This software simplifies mobilising your systems and information without jeopardising your security.

 <p>AMPLIFY PRODUCTIVITY Deploy devices, distribute apps and deliver the right user experience.</p>	 <p>IBM MaaS360 Empower IT and security operations to see, know and go mobile.</p>	 <p>MAXIMISE SECURITY Monitor devices, detect threats and automate compliance</p>
--	---	--

IBM MaaS360 facilitates employee collaboration and customer engagement in a secure and simply way. The main features are:

- **Comprehensive** - which means you can use a single platform for all your users, devices and apps
- **Scalable** - it doesn't matter how many devices, users or apps you need to add this software can work with 100s or even tens of 1000s, with a layered security to ensure your data is secure
- **Integrated** - by using IBM MaaS360 you can be assured of a seamless connection allowing access to email, directories, networking and content repositories

The benefits to your business by using IBM MaaS360 are:

- You will be able to empower your IT and security operations to go mobile
- Reassurance that your work ethic and regulations will be maintained at the standard you adhere to in your standard office environment
- There is no compromise on compliance to industry security standards regarding transfer and storage of sensitive information
- Smart phones and tablets can be set up for business use, separate work and personal data

Why Kelros for IBM Maas360?

With a wealth of experience and accredited technicians it is no wonder that Kelros has been rated as IBM's top messaging and collaboration license re-seller in the mid-market UK for three years running. This just goes to show that by using Kelros to install and set up your IBM MaaS360 software you know you will be in safe hands.
